Subject: FYI - Summary of OECA's conference call with House Science Committee staff on April 5, 2011 regarding Region 3's Dimock investigation

Steve:- Yesterday, OECA participated in a conference call with the House Science Committee minority staff about Region 3's drinking water investigation in Dimock, PA.

Congressional staff wanted to get an idea on how the sampling investigation is progressing and what the next steps are. According to the minority staff, a House Science Committee hearing on the issue is unlikely because their hearing schedule is already full. Please see below a brief summary of the questions and answers from the call.

Please find attached below a summary of the questions and answers from the call.

Have a nice weekend!
